SUMMARY

Third-year Software Engineering student at the Faculty of Informatics, Burapha University. Passionate about Software Testing (QA), Business Analysis (BA), and Artificial Intelligence (AI). Eager to explore various aspects of the Software Development Life Cycle (SDLC) and contribute to the team's success. Seeking an internship opportunity to apply academic knowledge and gain hands-on experience in the industry.

WORK EXPERIENCE & KEY PROJECTS

Tourism Community Management System (Cultura) | Collaborated with NECTEC Jul 2025 – Present

- Developing a full-stack web application for managing community-based tourism resources.
- Frontend: Built a responsive user interface using React, Tailwind CSS, and TypeScript.
- Backend: Developed RESTful APIs using Express.js and TypeScript, with Prisma ORM and MySQL database.
- Testing: Implemented automated System Testing and End-to-End (E2E) testing scripts using Playwright to ensure software reliability and bug-free user flows.
- Tools: Utilized Figma for UI/UX design and Insomnia for API testing.

Work Request System | Collaborated with ClickNext Bangkok Nov 2024 – Mar 2025

- Developed an internal work request management system to streamline task assignments and tracking.
- Utilized Laravel Framework (PHP) to build a robust web application architecture.
- Collaborated with a team (Cluster 3) to implement core features and ensure system reliability.

ACADEMIC PROJECTS

Scary Escape (3D Horror Game) 2023

- Developed a first-person survival horror game using Unity and C#.
- Designed game mechanics focusing on puzzle-solving and item collection ("find parts to escape").
- Collaborated in a team environment to integrate assets and script game logic.

Quiz Blast (Java Application) 2023

- Created a desktop quiz application using Java.
- Implemented features for category selection, score calculation, and interactive user assessment.

EDUCATION

Bachelor of Engineering in Software Engineering Jul 2023 – Present

Faculty of Informatics, Burapha University

- GPA: 3.61 (Accumulated)
- Relevant Coursework: Mobile Application Development, Software Testing & Quality Assurance, Enterprise Architecture, Data Structures & Algorithms, Database Systems.

High School Diploma (Science-Mathematics Program) 2019 – 2022

Bansuanjananusorn School

- GPA: 3.87

TECHNICAL SKILLS

Software Testing (Proficient)

- Automated Testing: Playwright (E2E & System Testing).
- Testing Skills: Manual Testing, Writing Test Cases, Bug Reporting.

Programming Languages

- Proficient: Java (OOP Concepts), JavaScript, HTML5, SQL (MySQL).
- Intermediate: TypeScript, CSS3, PHP, C#.

Web Development & Tools

- Frontend: React (Component-based), Tailwind CSS.
- Tools: Git (Version Control), Visual Studio Code, Figma, Insomnia (API Testing).
- Concepts: Basic Knowledge of Data Structures & Algorithms, Agile Methodology.

SOFT SKILLS

Communication & Collaboration

- Able to collaborate effectively within cross-functional teams and communicate complex technical issues clearly to developers and stakeholders.

Critical Thinking & Problem Solving

- Strong analytical skills utilized for identifying software bugs, diagnosing root causes, and implementing efficient solutions.

Attention to Detail

- Meticulous in executing test cases and verifying software functionality to ensure the highest standards of quality and reliability.

Growth Mindset & Adaptability

- Eager to learn new technologies and frameworks, with the ability to quickly adapt to changing project requirements and environments.

LANGUAGES

- Thai: Native
- English: Intermediate
